

RECORD LI - LIVESTOCK INPUT RECORD

OPERATION NAME:	
-----------------	--

Year:

Animal Type:

List substances related to Livestock used in the last 12 months or since your last submitted Record LI. You may choose to use this Record to keep a running tally of all livestock related inputs throughout the season.

Be sure to include bedding, feed, feed supplements and additives, pest control products, cleaning products-including egg washes and health/medical products used.

Please complete **separate Records** for each type of livestock (Poultry or 4-legged livestock or insects) as they need to be uploaded in their cooresponding sections. Distinguish between each production unit, if applicable.

Reminder: Only list approved/compliant products here. For any new inputs, please submit Approval G prior to use.
