RECORD E - EQUIPMENT CLEANING LOG

If you grow, handle or store both organic and non-organic crops / products, or have custom service providers who handle non-organic products that come onto your operation, or if you share equipment off-site, you can use this log to record the cleaning of any equipment before that equipment comes into contact with your organic areas, crops, products or facilities.

OPERATION NAME:		**YEAR:**	
Type of Equipment	**Product Used and Rinsing Procedures**	**Date Cleaned**	**Cleaned By**
