

RECORD D1 - ORGANIC SEED AND PLANTING STOCK COMMERCIAL AVAILABILITY SEARCH
--

When your Operation is unable to produce the seed / stock it requires and you are unable to find a commercially available Organic supply, you can use this form to document your attempts to locate a commercial supply of the organic seed or planting stock you need. The sources you contact should be known to handle organic seed or planting stock. A minimum of 3 sources per variety must be contacted in order to demonstrate unavailability. Evidence of Commercial Availability search must be available for your inspector to view.

OPERATION NAME:			YEAR:
Variety & Crop Type	Company	Date Contacted	1. Describe why non-organic seed or planting stock was purchased. eg. Unavailable in appropriate form, quality, quantity or variety. 2. Describe desirable characteristic(s) needed.
