*The purpose of this form is to help organic Operations assess the appropriateness of various inputs and to meet audit trail requirements of the Canadian Organic Standards as written documentation is required for all inputs brought onto organic farms. Filling out this form does not make a particular input acceptable. All inputs must be approved for use by your Certification Committee in advance. It is the CO Operation's responsibility to annually ensure that this declaration is valid and remains on file. Please refer to the Canadian Organic Standards for detailed information regarding inputs use.*
